

## 4. meeting in Germany (Ulm)

We went on the fourth mobility with a bigger van in the middle of the festive December.

We visited a large school in the center of Ulm, which has over 1,200 students. Their school system is designed differently than here, as the students are separated into primary and gymnasium.

We really liked dining room on their school, where they choose and pay for the meal that suits them daily. Water is always available to them.

The mobility program was extremely varied, as we got to know new places, famous buildings, ate healthy and exercised a lot, which was also the goal of our visit to Ulm.

.....a lot of sport ...

.....amazing and healthy food .....

....Christmass spirit ...

....nice sightseeing...

We are glad that Germany is not so far away, because we will be happy to visit it again sometime.
