

2. meeting in Greece (Alexandroupoli)

29. 5. 2022 – 3. 6. 2022

We finally got to experience our first mobility with students in the Erasmus+ project, which we have all been waiting for. What was especially exciting was that we were traveling by plane.

Three of schoolgirls traveled by plane for the first time and we had a total of 4 flights on our way. We flew from Zagreb Airport to Thessaloniki, and from there we continued our journey by van. So we arrived in Alexandropolis the day before the program started and we stayed in a hotel near the coast, which was great, because we could spend every free time by the sea.

The students and teachers of the host school warmly welcomed us and treated us to traditional Greek dishes, and they also showed and taught us their folk dances.

With the cooking workshop, we tried our hand at preparing a traditional Greek salad and octopus in a salad. The dishes were really delicious and healthy and we ate everything.

During our mobility in Greece, we were very active in sports, as we tried our hand at climbing, greek dancing, archery, rowing, canoeing and zip-lining. We also walked a lot, visiting and getting to know their historical and natural attractions.

Full of impressions, new friendships... on Friday, June 3, 2022, we said goodbye with difficulty and waved goodbye....
